-------------------------------------	-----------------------------------	-------------------------------------	------------------------------------

Job Description

As a Product Designer, you will work within a Product Delivery Team fused with UX, engineering, product and data talent. You will help the team design beautiful interfaces that solve business challenges for our clients. We work with a number of Tier 1 banks on building web-based applications for AML, KYC and Sanctions List management workflows. This role is ideal if you are looking to segue your career into the FinTech or Big Data arenas.

Responsibilities

- As a Product Designer, you will work within a Product Delivery Team fused with UX, engineering, product and data talent.
- Have sound knowledge of commercial activities.
 - Build next-generation web applications with a focus on the client side
 - Work on multiple projects at once, and consistently meet draft deadlines
 - have already graduated or are currently in any year of study
 - Revise the work of previous designers to create a unified aesthetic for our brand materials

Qualification

- B.C.A / M.C.A under National University course complete.
- 3 or more years of professional design experience
- have already graduated or are currently in any year of study
- Advanced degree or equivalent experience in graphic and web design

Skill & Experience

- Understanding of key Design Principal
- Proficiency With HTML, CSS, Bootstrap
- Wordpress: 1 year (Required)
- Experience designing and developing responsive design websites
- web designing: 1 year (Preferred)
